SUMMARY

- Total Group Net Asset Value ('NAV') of €174 million and €164 million before and after Deferred Tax Liabilities ('DTL'). This represents a decrease of €6.3 million and €5.6 million (3.5% and 3.3%) respectively compared to 31 December 2019. NAV reduction principally due to operational, finance, corporate and management expenses, together with a €2.1 million reduction in the value of investment property.
- Sterling NAV per share as at 30 June 2020 stood at 18p before DTL and 17p after DTL, versus 17p and 16p, a 3.1% and 3.3% increase before and after DTL respectively, compared to 31 December 2019. The increase in Sterling NAV has resulted from the 6.9% depreciation of Sterling versus the Euro during the period that has fully offset the decrease in Euro NAV.
- Total Debt of €6.6 million with a Group total debt to gross asset ratio of 3% as at 30 June 2020 (31 December 2019: 3%). DCI itself does not have any borrowings. Operating expenses for the period have declined by €0.7 million (17%) compared to the same period of 2019.
- The COVID-19 pandemic impact is ongoing across all our business activities, restricting our ability to market and sell plots and villas in our development projects and Aristo. It has also dampened investor interest in the acquisition of large-scale greenfield development projects in the residential/hospitality sector, consequently pushing back potential portfolio asset disposals. Nevertheless, we have engaged advisers to identify potential purchasers of the Company's key projects.

Chairman's statement

Andrew Coppel CBE,
commented:

"The travel restrictions and border closures put in place due to the COVID-19 pandemic have had an adverse impact on our ability to achieve all our business goals within the first six months of the year. In particular, this affected our sales efforts both on a project and on a retail basis at Aristo and hindered our development works in One&Only Kéa Island ('OOKI') and Kilada. We are delighted that there has since been a full resumption of works at OOKI as well as that construction has commenced at Kilada. In parallel we have continued working towards the implementation of the Company's divestment strategy and have engaged advisers to assist us in this process on an asset by asset basis."

I am pleased to report Dolphin's interim financial results for the six months ended 30 June 2020, and to provide a trading update.

During the first half year, the Board and the Investment Manager have focused their efforts on resuming and progressing construction at OOKI, commencing works at Kilada and dealing with the effects of the COVID-19 outbreak in our business. This resulted in deferment of ongoing asset-disposal discussions, delays across all our permitting activities, weaker Aristo sales, as well as the need to redefine our sales and marketing strategy in view of the lockdown measures and travel restrictions.

The loss after tax for the period ended 30 June 2020, attributable to owners of the Company, amounted to €5.4 million, of which €2.1 million was due to the write down in value of property, compared to a loss of €4.9 million for the period ended 30 June 2019.

Despite the adverse market conditions, we were able to execute two residential sales reservations at OOKI on an off-plan basis and advance several other discussions.

Furthermore, we sold two land plots outside the project perimeters at Kilada and LaVanta for an aggregate consideration of €2.3 million.

Aristo's new sales in 2020 have been significantly impacted by COVID-19. As its main market is China, it has felt the impact of the pandemic from the beginning of the year due to travel restrictions imposed on Chinese residents which further culminated in the global inbound travel ban enacted by the Cyprus government from March onwards. This resulted in a 69% drop in sales revenue on a year-on-year basis. Since July, we have seen an improvement in the situation with some international flights resuming. The three-month lockdown also caused delays in construction. However from May onwards, Aristo has been able to complete and deliver a number of already sold units thus becoming entitled to the corresponding delivery payments from purchasers. We are monitoring the Aristo financial and cash flow situation closely and working with Aristo management to ensure that we take advantage to the fullest extent possible of the policy measures introduced by the Cyprus government and meet the operational challenges faced by the business on a day-to-day basis.

We are encouraged by the agreement of the governments of the United Kingdom and Cyprus on regulating development in the non-military SBAs on the island, which has already resulted in provisional zoning permissions granted to our Apollo Heights project. We will be filing our formal comments, seeking to improve these provisional zoning entitlements, by the end of the year. In all cases the final zoning permissions, which are expected to be granted to the project in early 2021 following the conclusion of the consultation period, would increase both its value as well as its short-term sale potential.

COVID-19 added a material headwind to the already challenging markets for greenfield real estate developments in Greece, Cyprus, Croatia and Turkey. We have been able to address the fundamental operational challenges that the pandemic caused to our developments in OOKI and Kilada as well as generate actionable sales leads during the lockdown period by refocusing our sales and marketing strategy. Importantly, we are now, in parallel, actively exploring available options to achieve the disposal of our portfolio assets to both real estate and private equity investors and have engaged advisers to assist us throughout the process on a project by project basis. We are acutely aware of the time limitations set in our disposal strategy and are working with the Investment Manager and the Company's advisers to achieve tangible divestment results.

Miltos Kambourides,
commented:

“Our ability to execute two off-plan residential sales at OOKI despite adverse market conditions validates both the potential of the project as well as the resilience of our integrated hospitality and residential project portfolio composition. In the new social-distancing and remote working landscape that prevails after the COVID-19 outbreak, we have witnessed that the demand for quality second homes remains healthy, as affluent and increasingly mobile individuals are looking for fully serviced properties, offering privacy and longer-term use potential. We believe that this trend will continue and enable us to monetise our project portfolio in accordance with our divestment strategy.”

Unlocking value for shareholders and implementing the new asset strategy are our key areas of focus.

Business overview

During the first nine months of 2020 we focused on enhancing the value of our portfolio assets, while addressing the day-to-day challenges of COVID-19:

- progressing construction works at OOKI and Kilada;
- refocusing our sales and marketing strategy at a time of travel restrictions and social distancing measures;
- making permitting advances across our asset portfolio, including the improvement of zoning conditions at Apollo Heights;
- monitoring our operational budgets and reducing overhead costs where possible; and,
- re-activating divestment discussions which were deferred due to COVID-19 and engaging advisers to generate new leads for the sale of our portfolio assets.

We continue to focus on the implementation of the Company's strategy to realise the value of our diverse asset portfolio in order to maximise cash returns for our shareholders.

To mark the progress in development of Kilada, a ground-breaking ceremony was held on-site on 19 June 2020, which was attended by a number of senior government and municipal officials.

➔ go to page 10 for information on Kilada

Market dynamics

COVID-19 has had a major impact on the travel, real estate and hospitality industries. We have witnessed a significant reduction in international travel, governmental lockdown measures imposed on hotels and resorts in Greece and Cyprus and supply chain delays which impacted our ongoing development activities as well as our portfolio divestment initiatives.

We have tried to tackle these operational challenges in all the countries where the DCI group operates. We are working closely with our partners, contractors and key stakeholders to find actionable ways enabling us to push forward the development of our ongoing projects, enhance the digitisation of our sales and marketing efforts which was needed to remain relevant in a social distancing environment, and engage key advisers whom we expect to source new leads for the disposal of our asset portfolio.

However, beyond the immediate challenges, the pandemic is likely to create transformative and lasting changes in our industry. The hospitality and real estate sectors were already materially impacted during 2020 and the persistence of travel restrictions may permanently affect demand for hospitality assets going forward. On the other hand, we have seen that the affluent investors' demand for quality second homes during this crisis has remained resilient, if not enhanced, helped by remote-working arrangements and social distancing considerations.

Notwithstanding the above, the uncertainty created by the COVID-19 outbreak has not as yet faded and the disruption that it will cause to our disposal efforts and our development, permitting and sales activities cannot be quantified at this juncture. We are constantly reviewing our actions and strategies to adapt to this new landscape and attain the divestment strategy objectives for the benefit of our shareholders.

Heah & Co

One&Only Kéa Island is Dolphin's third resort in Greece to be constructed on the island of Kéa, the closest Cycladic island to Athens. Surrounded by dramatic sea views and a spectacular sandy beach offering a natural harbour and a safe shelter from the Aegean wind, One&Only Kéa Island is accessible through a 15-minute drive from Athens International Airport to Lavrio Harbour, followed by a 30-minute boat ride.

OPERATIONS UPDATE

Following the COVID-19 outbreak, the Greek government enforced drastic measures to mitigate the virus risk on all island destinations, which included the complete lockdown of all island hotels and restaurants as well as restrictions on inbound and outbound transportation to islands, which was limited to permanent residents only. These measures were lifted on 25 May 2020, at which point we were able to resume the project construction.

Due to the pandemic related construction delays as well as the uncertainty over the hospitality industry performance in 2021, the project shareholders decided to postpone the OOKI resort opening until the 2022 season.

The OOKI project will comprise 75 standalone hotel guest rooms with private pools, two restaurants, an extensive beach club, spa facilities, a yacht pier as well as a number of private homes, which will be sold on an off-plan basis.

During the lockdown period we created dedicated social media campaigns, alongside PR activities, and undertook online actions jointly with the One&Only marketing teams to generate awareness of the residential offering of the project. Leveraging on these initiatives, and in spite of the practical travelling difficulties caused by the COVID-19 measures, we have been able to close during this summer two off-plan villa sales at OOKI with an aggregate value in line with the project sales budget.

Kilada represents the development of the most exclusive golf residential community in Greece, a few minutes' drive from Amanzoe, to include the first Jack Nicklaus championship golf course in the country, together with over 230 luxury serviced residences. There is an impressive array of archaeological sites locally, as well as the cosmopolitan islands of Spetses and Hydra just a stone's throw away.

OPERATIONS UPDATE

Following the issuance on 1 November 2019 of the final construction permit for the first phase of this project in the Porto Heli area, which includes the 18-hole Jack Nicklaus Signature Golf Course, the Kilada country club and infrastructure for the first 90 residential lots, earthworks have commenced on-site.

A tendering process is underway for the other key components of the project which include site and residential infrastructure works as well as the golf course and country club construction, which are scheduled to commence once the earthworks have advanced. The finalisation of the tenders through the award of these construction contracts to individual contractors is expected within Q4 2020, while the completion of the first phase of Kilada is expected in the second half of 2022.

To mark the progress in development a ground-breaking ceremony was held on-site on 19 June 2020, which was attended by a number of senior government and municipal officials due to the project's Strategic Investment status.

In parallel we have completed the full rebranding of the project and, following the launch of a dedicated website (www.mykilada.com), we have conducted a marketing campaign in the UK and Greece through a number of media outlets which resulted in a significant number of sales leads.

On 11 June 2020, we achieved the sale of a 49,682 m² land site, located outside the project perimeter, for €1.5 million which was fully paid in cash on closing.

Operating performance

- The travel restrictions imposed in both China and Cyprus in the aftermath of the COVID-19 breakout created a major obstacle to Aristo's sales efforts and resulted in a drastic reduction in its 2020 sales.
- 34 homes and plots were sold during the first six months of 2020, representing total sales of €10.5 million, down 69.38% compared to €34 million for the same period in 2019.
- 43 homes and plots were sold in total up to the end of August 2020, representing total sales of €14 million, down 67% compared to €42.5 million for the same period in 2019.

The substantial majority of Aristo's sales continue to be under the Cyprus citizenship investment programme, which offers Cypriot citizenship to foreign nationals investing at least €2 million in real estate. Consequently, the bulk of the relevant sales proceeds remains in blocked or escrow accounts until the citizenship is awarded to the applying customer and /or the construction of the relevant property progresses (for off-plan sales). Aristo had a total of €15 million in blocked/escrowed funds as at 30 June 2020 (€18.8 million at YE 2019). As the relevant applications mature and properties are delivered, its available cash balances are expected to increase. However, both Aristo's capacity to complete and deliver homes and the purchasers' ability to travel to Cyprus and take delivery of their properties have been materially impaired due to the COVID-19 related lockdowns, travel bans and quarantine measures imposed both in Cyprus and in Aristo's key markets. As such, the timely release of escrowed funds, which was key to the company's cash flow generation, was also adversely impacted. As the travel restrictions began to ease from July onwards, the Aristo management expects that the orderly completion of sold properties and cash collection will progressively ensue.

DCI has received during the period €0.5 million from the deferred consideration due to it, from the sale of its Venus Rock related preferred shares to Aristo Ktimatiki (an entity controlled by Theodore Aristodemou, Chairman of Aristo) which was executed on 23 August 2019. The pending consideration of €3.5 million is expected to be settled within Q4 2020.

NAV per share after DTL	0.18	0.17	0.19	0.16	(3.3%)	3.3%

Notes:

1. Euro/GBP rate 0.91263 as at 30 June 2020 and 0.85369 as at 31 December 2019.

2. NAV per share has been calculated on the basis of 904,626,856 issued shares as at 30 June 2020 and as at 31 December 2019.

Total Group NAV as at 30 June 2020 was €174 million and €164 million before and after DTL respectively. This represents a decrease of €6.3 million (3.5%) and €5.6 million (3.3%) respectively from the 31 December 2019 figures. Given that no valuation of the Company's portfolio took place as at 30 June 2020, apart from the Livka Bay investment property, for which the fair value was adjusted downwards by €2.1 million due to market conditions prevailing in the property market of Croatia, the NAV reduction is mainly due to Dolphin's regular operational, corporate, finance and management expenses.

Sterling NAV per share as at 30 June 2020 was 0.18p before DTL and 0.17p after DTL and increased by 3.2% and 3.3% before and after DTL respectively, compared to the 31 December 2019 figures. The depreciation of Sterling versus the Euro during the period of approximately 6.9% has fully offset the Euro decrease in NAV.

The Company's consolidated assets of €221 million include €157 million of real estate assets, €60 million of equity-accounting investees (which reflects our 33% shareholding in OOKI as well as the Company's 47.9% interest in Aristo), €1 million of trade and other receivables, €1 million of other investments (which represents the Company's investment in Itacaré) and €2 million in cash.

The figure of €157 million of real estate assets (property, plant and equipment, trading properties and investment property) represents the fair market valuations conducted as at 31 December 2019 for both freehold and long leasehold interests.

The Company's consolidated liabilities (excluding DTL) total €41 million and mainly comprise €29 million of trade and other payables as well as €11 million of interest bearing loans and finance lease obligations. All loans are held by Group subsidiaries and are non-recourse to Dolphin. Trade and other payables comprise mainly €21 million of option contracts to acquire land in the Company's Lavender Bay project.

The consolidated financial statements have been reviewed by KPMG in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'.

Board of Directors

ROLE

Dolphin's Board of Directors (the 'Board') is the Company's absolute decision-making body, approving and disapproving all investment activity proposed by the Investment Manager. The Board is responsible for acquisitions, divestments and major capital expenditures and focuses on the Company's long-term objectives, strategic direction and dividend policy. The biographical details of all the Directors are given here.

ANDREW COPPEL

Chairman

Andrew Coppel has over 20 years' experience within the hospitality and leisure sectors in chairman, CEO and/or senior board level roles, as well as being a non-executive director of one of the UK's largest residential housebuilders.

Most recently, from 2011 to 2015, Andrew was CEO of De Vere Group, one of the largest hotel and leisure groups in the UK, having joined the business initially as executive chairman in March 2010. As CEO, he led a team in turning round the group, building value through operational and investment initiatives, and crystallising that value principally through the sales of the three main divisions to US private equity firms. This resulted in the repayment to Lloyds Banking Group of over £1bn.

Andrew was chairman and CEO of McCambridge Group from 2008 to 2009 and CEO of Jockey Club Racecourses from 2004 to 2007. In 1993, he joined Queens Moat Houses, one of the largest hotel groups in Europe, where he was group CEO until 2003. From 1990 to 1993 he was chairman and CEO of Sale Tilney.

In a non-executive capacity, he was the first chair of Tourism Ireland for seven years (2001-2007), chair of London Irish Rugby Football Club (2008-2011) and a non-executive director of Crest Nicholson (2009-2011). He also sat on Lloyds Bank's Advisory Board on Ireland. Andrew was awarded a CBE in 2009 for services to Irish tourism.

MARK TOWNSEND

Mark Townsend is Investment Consultant to Asset Value Investors Limited, a significant shareholder of the Company. Mark has nearly 40 years' experience investing in listed property companies and directly into property markets in Europe.

Mark has managed the French Property Trust and the European Asset Value Fund, along with discretionary US and European mandates, which focused on under-researched, under-valued listed property companies throughout Europe. Mark was elected a Fellow of the Royal Institution of Chartered Surveyors in 1990.

GRAHAM WARNER

Graham Warner is a non-executive director at J O Hambro Capital Management Umbrella Fund plc, which continues to be a significant shareholder of the Company. Graham has nearly 40 years' experience in banking and financial services, most recently as finance director of J O Hambro Capital Management Group Limited, and extensive experience of statutory reporting and governance of publicly listed entities.

Prior to joining J O Hambro in 2000, Graham worked for Mercury Asset Management (subsequently Merrill Lynch Investment Managers), where he was responsible for Mercury's financial accounting and regulatory reporting. He has also worked for the National Bank of Kuwait Group and Hong Kong & Shanghai Banking Corporation in senior financial management roles. Graham is a qualified Chartered Accountant.

MILTOS KAMBOURIDES

Miltos Kambourides is the founder and Managing Partner of Dolphin Capital Partners (DCP), a private equity business founded in 2004, specialising in real estate investments.

Miltos was previously a founding partner of Soros Real Estate Partners (SREP), a global real estate private equity business formed in 1999 by George Soros, which executed a number of complex real estate transactions in Western Europe and Japan.

Prior to joining Soros, Miltos spent two years at Goldman Sachs working on real estate private equity transactions in the UK, France and Spain. In 1998, he received a Goldman Sachs Global Innovation Award for his work at Trillium, the largest real estate outsourcing company in the UK.

He graduated from the Massachusetts Institute of Technology with a BS and MS in Mechanical Engineering and a BS in Mathematics. He has received several academic honours and participated twice in the International Math Olympiad (Beijing 1990, Moscow 1992) and once in the Balkan Math Olympiad (Sofia 1990) where he received a bronze medal.

Independent Auditors' report

on review of condensed consolidated interim financial statements
To Dolphin Capital Investors Limited

INTRODUCTION

We have reviewed the condensed consolidated interim financial statements of Dolphin Capital Investors Limited (the 'Company') on pages 28 to 45, which comprise the condensed consolidated interim statement of financial position as at 30 June 2020, and the related condensed consolidated interim statements of profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended and notes to the condensed consolidated interim financial statements. Management is responsible for the preparation and presentation of these condensed consolidated interim financial statements in accordance with IAS 34, 'Interim Financial Reporting'. Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our review.

SCOPE OF REVIEW

We conducted our review in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated interim financial statements as at 30 June 2020 are not prepared, in all material respects, in accordance with IAS 34. This report, including the conclusion, has been prepared for and only for the Company's members as a body. We do not, in giving this conclusion, accept or assume responsibility for any other purpose or to any other person to whose knowledge this report may come to.

EMPHASIS OF MATTER

We draw attention to Note 4 of the condensed consolidated interim financial statements of the Company for the six-month period ended 30 June 2020, which refers to the significant uncertainties related to the COVID-19 outbreak and particularly the expected difficulties by the Group to dispose of its portfolio assets within the planned timeframe.

We further draw attention to Note 2(b), which explains that the Company's condensed consolidated interim financial statements have been prepared taking into account the Company's intention to dispose of all of its assets by 31 December 2021. In the event that any assets are still held by the Company shortly before 31 December 2021, the Board will convene a shareholders' meeting at which appropriate resolutions for the future of the Company will be proposed. The basis of preparation used continues to be in accordance with IAS 34.

Our conclusion is not modified in respect of this matter.

Notes to the condensed consolidated interim financial statements

1. REPORTING ENTITY

Dolphin Capital Investors Limited (the 'Company') was incorporated and registered in the British Virgin Islands ('BVI's') on 7 June 2005. The Company is a real estate investment company focused on the early-stage, large-scale leisure-integrated residential resorts in south-east Europe and managed by Dolphin Capital Partners Limited (the 'Investment Manager'), an independent private equity management firm that specialises in real estate investments, primarily in south-east Europe. The shares of the Company were admitted to trading on the AIM market of the London Stock Exchange ('AIM') on 8 December 2005.

The condensed consolidated interim financial statements of the Company as at and for the six-month period ended 30 June 2020 comprise the financial statements of the Company and its subsidiaries (together referred to as the 'Group') and the Group's interests in associates.

The condensed consolidated interim financial statements of the Group as at and for the six-month period ended 30 June 2020 are available at www.dolphinci.com.

2. BASIS OF PREPARATION

a. Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 'Interim Financial Reporting'. They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2019. They are presented in euro (€), rounded to the nearest thousand.

These condensed consolidated interim financial statements were authorised for issue by the Board of Directors on 28 September 2020.

b. Basis of preparation

The condensed consolidated interim financial statements of the Company for the six-month period ended 30 June 2020 have been prepared taking into account the Company's intention to dispose of all of its assets by 31 December 2021, as further explained below. The basis of preparation used continues to be in accordance with IAS 34.

Based on the Company's asset strategy, the Company's objective is to dispose of all of the Company's assets by 31 December 2021. The allocation of any additional capital investment into any of the Company's projects will be substantially sourced from third party capital providers and with the sole objective of enhancing the respective asset's realisation potential until 31 December 2021. The Board expects to return the proceeds from asset disposals to shareholders as the orderly realisation of the Company's assets progresses after taking into account the Company's liquidity position and working capital requirements. In the event that any assets are still held by the Company shortly before 31 December 2021, the Board will convene a shareholders' meeting at which appropriate resolutions for the future of the Company will be proposed.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2019. A number of new standards are effective from 1 January 2020, but they do not have a material effect on the Group's financial statements.

Comparatives

Comparative figures have been reclassified to reflect the required changes in presentation in relation to the reclassification of Azurna Uvala D.o.o (owner of 'Livka Bay') in Croatia and DCI Holdings Two Limited (owner of 'Aristo') out of disposal groups held for sale (see note 16).

4. USE OF JUDGEMENTS AND ESTIMATES

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those applied to the consolidated financial statements as at and for the year ended 31 December 2019.

Going concern assumptions

The Group's cash flow forecasts for the foreseeable future involve uncertainties related primarily to the exact disposal proceeds and timing of disposals of the assets expected to be disposed of. Management believes that the proceeds from forecast asset sales will be sufficient to maintain the Group's cash flow at a positive level. Should the need arise, management is confident that it can secure additional banking facilities and/or obtain waivers on existing ones, until planned asset sales are realised and proceeds received.

As stated in note 9, the slowdown in economic activity and transportation restrictions in all the countries where the Group operates due to the COVID-19 outbreak is expected to have a significant impact on both its ability to complete the construction of its ongoing projects in a timely manner as well as hinder its efforts to realise transactions for the disposal of its portfolio assets.

If for any reason the Group is unable to continue as a going concern, then this could have an impact on the Group's ability to realise assets at their recognised values and to extinguish liabilities in the normal course of business at the amounts stated in the condensed consolidated interim financial statements.

9. SEGMENT REPORTING

Operating segments

As at 30 June 2020 and 30 June 2019, due to the latest disposals that took place in its asset portfolio, the Group is not considered to have reportable operating segments that require disclosure.

Country risk developments

The general economic environment prevailing in the south-east Europe area and internationally may affect the Group's operations. Factors such as inflation, unemployment, public health crises, international trade and development of the gross domestic product directly impact the economy of each country. Variations in those factors and the economic environment in general affect the Group's performance to a certain extent.

On 11 March 2020, the World Health Organization declared the Coronavirus COVID-19 outbreak to be a pandemic in recognition of its rapid spread across the globe. Many governments are taking increasingly stringent steps to help contain, and in many jurisdictions now delay, the spread of the virus, including: requiring self-isolation/quarantine by those potentially affected, implementing social distancing measures, and controlling or closing borders and 'locking-down' cities/regions or even entire countries.

The COVID-19 outbreak is already having a major effect on the travel, real estate and hospitality industries. The Group has witnessed a significant reduction in foreign travel intent, complied with governmental lockdown measures imposed on hotels and resorts in Greece and been affected by supply chain delays which have impacted the Group's ongoing construction activities.

The slowdown in economic activity and transportation restrictions in all the countries where the Group operates is expected to have a significant impact on both its ability to complete the construction of its ongoing projects in a timely manner as well as hinder its efforts to realise transactions for the disposal of its portfolio assets.

The size of the impact cannot be fully quantified at this stage and will depend on how quickly the outbreak fades and normal conditions resume. The situation is being closely monitored and strategies will be adjusted including implementation of any emergency measures needed.

16. DISPOSAL GROUPS HELD FOR SALE

In 2019, the Group completed the sale of six out of seven Seafront Villas in Greece (owned by the Collection Group) and was in the process of finalising the sale of the one remaining Villa. Accordingly, the remaining assets and liabilities of the Collection Group as at 31 December 2019 were presented as a disposal group held for sale. As shown in note 28, the Group as of 30 June 2020 has completed the disposal of the one remaining Seafront Villa.

As at 31 December 2019, Azurna (owner of 'Livka Bay') in Croatia and DCI Holdings Two Limited ('DCI H2') (owner of 'Aristo') were also presented as held for sale, but as the disposals did not materialise, they were classified out of held for sale as of 30 June 2020.

Impairment losses relating to the disposal group

No impairment losses have been recognised during the period ended 30 June 2020 and 30 June 2019 for write-downs of the disposal groups to the lower of their carrying amount and their fair value less costs to sell.

Assets and liabilities of disposal group held for sale

As at 31 December 2019, the disposal groups comprised the following assets and liabilities:

SPV14

As stated in note 28, in 2019, SPV 10 entered into a joint venture agreement pursuant to which the Group's shareholding interest in SPV 14 (owner of 'One&Only Kéa Resort') was decreased from 67% to 33%, as a result of dilution. The Group accounted for the remaining 33% interest as an equity-accounted investee.

DCI H2

As at 30 June 2020 and 31 December 2019, the Company's holding of 47.9% in DCI H2 has been classified as an equity accounted investee (as already stated in note 16). Pursuant to the terms of the transaction executed in August 2019, for the sale of 37 hectares in the area referred to as 'Atlantis', in the north of the Venus Rock project which was formerly owned by Aristo, to Aristo Ktimatiki (an entity controlled by Mr. Theodoros Aristodemou, chairman of Aristo), the Company as of 30 June 2020 received €0.5 million (31 December 2019: €5 million) cash consideration from Aristo Ktimatiki. The remaining €3.5 million that was due by 30 June 2020 is expected to be received during the fourth quarter of 2020. The corresponding preferred shares are being transferred by the Company to Aristo Ktimatiki on a prorated basis in line with the receipt of the commensurate instalment.

As of 30 June 2020, the Group has not recognised losses totalling €2,420 thousand (2019: €239 thousand profit) in relation to its interest in DCI H2, as the investment in DCI H2 is already impaired and is presented at its recoverable amount €42.7 million (2019: €42.7 million).

The recoverable amount of DCI H2 was based on its fair value less cost of disposal. Following the impairment loss recognised in 2016, the recoverable amount is equal to the carrying amount.

The details of the above investments are as follows:

Name	Country of incorporation	Principal activities	Shareholding interest	
			30 June 2020	31 December 2019
SPV 14	Cyprus	Development of Kéa Resort (Greece)	33%	33%
DCI H2	BVIs	Acquisition and holding of real estate investments in Cyprus	48%	48%

The above shareholding interest percentages are rounded to the nearest integer.

As at 30 June 2020, SPV 14 had €35,892 thousand (31 December 2019: €38,292 thousand) contractual capital commitments on property, plant and equipment. Also, as at 30 June 2020, DCI H2 had €3,500 thousand (31 December 2019: €3,500 thousand) contractual capital commitments on investment property.

Summary of financial information for equity-accounted investees as at 30 June 2020 and 31 December 2019, not adjusted for the percentage of ownership held by the Group:

Mr. Miltos Kambourides has waived his fees.

27.2 Investment Manager remuneration

	From 1 January 2020 to 30 June 2020 €'000	From 1 January 2019 to 30 June 2019 €'000
Fixed management fee	1,800	2,000
Total remuneration	1,800	2,000

On 9 April 2019, the Company signed an Amended and Restated Investment Management Agreement ('IMA'), effective from 1 January 2019, as follows:

i. Fixed management fee

The annual management fees for the period from 1 January 2019 to 31 December 2019 were €4 million and have been further reduced to €3.6 million per annum for 2020 and 2021.

Additionally, the IMA will expire at the earlier of 31 December 2021 or the sale of all of the Company's assets. There will be no fixed management fee due after 31 December 2021.

Notes to the condensed consolidated interim financial statements

27. RELATED PARTY TRANSACTIONS CONTINUED

27.2 Investment Manager remuneration continued

ii. Variable management fee

The variable management fee for the period from 1 January 2020 to 31 December 2021 shall be equal to a percentage of the actual distribution made by the Company to its shareholders, as shown below:

Aggregate Shareholder Distributions	% applied on Distributions
Up to but excluding €30 million	Nil
€30 million up to but excluding €50 million	2.0%
€50 million up to but excluding €75 million	3.0%
€75 million up to but excluding €100 million	4.0%
€100 million up to but excluding €125 million	5.0%
€125 million or more	6.0%

The Investment Manager was entitled to a performance fee payable under the terms of the previous IMA. There is no change to this entitlement. However, any performance fees earned under this arrangement will be fully deducted from any future annual management fees and variable management fees payable over the term of the IMA.

27.3 Other related parties

During the period ended 30 June 2020 and 30 June 2019, the Group did not enter into any significant related party transactions.

28. BUSINESS COMBINATIONS

On 30 January 2020, the Group finalised the sale of the one remaining Seafront Villa (owned by the Collection Group), creating a net gain on disposal of €336 thousand (see note 16).

	Collection €'000
Trading properties	(1,124)
Cash and cash equivalents	(1)
Trade and other payables	1,461

Cash effect on disposal:	
Net proceeds on disposal	–
Cash and cash equivalents	(1)
Net cash outflow on disposal	(1)

On 11 December 2018, the Company entered into a binding agreement for the sale of its interest in five Seafront Villas (owned by the Collection Group) for a gross consideration of €4.05 million. The Group received €3.4 million on 2 January 2019 whilst the balance has been retained in escrow to cover any potential and contingent liabilities of the respective companies. During 2019, the Group also completed the sale of another Seafront Villa for a cash consideration of €0.4 million.

On 1 November 2017, the Company along with the project's current minority shareholder entered into an agreement through its relevant project subsidiary companies, for a €16 million equity investment by One&Only Resorts Limited ('One&Only') in exchange for a 40% shareholding in SPV 14, 100% holding company of Kéa Resort. The consideration will be deployed in the development of the Kéa Resort, with the transaction including the operation of the Kéa Resort and its residences by One&Only through long-term management and branding agreements. In May 2019, following the satisfaction of all relevant conditions precedent included in the One&Only at Kéa Island ('OOKI') Subscription Agreement, the Group signed the completion documents with Kerzner International Management FZ LLC (current owner of 40% of the project) and Kéa Assets Limited (current owner of 10% of the project). As a result, the Company's percentage holding in the project fell from 67% to 33%, which is retained as an equity-accounted investee (see note 17). The turn-key construction contract for the development of OOKI was executed on 9 August 2019.

29. FINANCIAL RISK MANAGEMENT

The Group's financial risks and risk management objectives and policies are consistent with those disclosed in the consolidated financial statements as at and for the year ended 31 December 2019.

Fair values

The fair values of the Group's financial assets and liabilities approximate their carrying amounts at the statement of financial position date.

30. COMMITMENTS

As of 30 June 2020, the Group had a total of €893 thousand contractual capital commitments on property, plant and equipment (31 December 2019: €45 thousand).

31. CONTINGENT LIABILITIES

Companies of the Group are involved in pending litigation. This principally relates to day-to-day operations as a developer of second-home residences and largely derives from certain clients and suppliers. Based on advice from the Group's legal advisers, the Investment Manager believes that there is sufficient defence against any claim and does not expect that the Group will suffer any material loss. All provisions in relation to these matters which are considered necessary have been recorded in these condensed consolidated interim financial statements.

In addition to the tax liabilities that have already been provided for in the condensed consolidated interim financial statements based on existing evidence, there is a possibility that additional tax liabilities may arise after the examination of the tax and other matters of the companies of the Group in the relevant tax jurisdictions.

The Group, under its normal course of business, guaranteed the development of properties in line with agreed specifications and time limits in favour of other parties.

32. SUBSEQUENT EVENTS

There were no material events after the reporting period which have a bearing on the understanding of the condensed consolidated interim financial statements as at 30 June 2020.
